

### GREEN DAY

We celebrated 'Green day' with our learners where they were dressed up in green colour outfit. To bring on some more excitement we also had a small painting activity where the children did finger print activity making a tree and also spoke about a green object for the Show & Tell activity.

### Green day Celebration

# VIRTUAL INDEPENDENCE DAY

Even during the critical times, the spirit of Independence Day was soaring high in Nalapad Academy. Pre-primary children were dressed up in white and made tricolor sandwich relating to our India flag. They enjoyed and displayed great enthusiasm in the sandwich making activity. They explained about our National symbols of India with flash cards and videos. Children from grades 1-9 made short videos on culture and famous personalities of India. Children sang the patriotic song “he watan watan abad rahe tu” At last we ended our celebration with Our National Anthem ‘Jana Gana Mana’.

# DRESS UP DAY

During our theme Food we eat, Children dressed up as different fruits and showcased their talent speaking few sentences about it. We also had various games like mystery game, guessing the vegetables when blindfolded etc. Over all this theme was very interesting for the little ones.

Dress up day

# TEACHERS DAY CELEBRATION

As a token of gratitude children made beautiful cards, videos to make their teachers feel special and also expressed their feeling dressing up as a teacher and pretending to be a teacher and sang a song and danced for their teachers which was amazing to watch.

# NUMERACY

Learners usually learn about colors and shapes during their formative years. Developing numeracy skills early gives children a foundation for their learning and development. It prepares them for daily life including general problems. We exposed numeracy to our learners by giving various activities like sorting, introducing pre math concepts, numbers, patterns, shapes etc.

# LITERACY

Listening skills are critical for language development and reading. Learners learn new vocabulary and expand their sentences and grammar. Our little ones were given various activities for their language development and also, we worked on giving them activities like tracing, pattern making, writing etc. To develop their language and vocabulary we gave them opportunities like shown tell every week where they learn how to build effective communication and use appropriate grammar while speaking.

# ENVIRONMENT WEEK

Environment week was celebrated to bring awareness in children and to develop a sense of responsibility and caring towards nature. Several learning engagements were planned everyday like potting the plant, poster making, paper bag making. Children also understood about "Chipko movement".

# SHOW AND TELL

The Primary section of Nalapad Academy added some colour to their week as the students participated in a Colour-themed Show and Tell activity. The students of Grades 1 to 5 brought in objects of the assigned colour and showcased their speaking skills. Objects ranged from toys to useful items and the students informed and entertained us. The students and the teachers learnt a lot, and the students also developed some confidence in speaking in front of their peers. Overall, it was a very colourful and fun session for all the grades!
